

Cedar Language Reference Manual

Version 3.2

XEROX

FOR INTERNAL USE ONLY

Release as [Indigo]<Cedar>Documentation>CLRM.press
Draft [Indigo]<CedarDocs>Language>CLRM.press
By Butler Lampson

Abstract This manual describes the Cedar Language. It is organized into three major parts
A description of a much simpler *kernel* language, in terms of which the Cedar Language is explained.
The syntax and semantics of the Cedar Language.
The primitive types and procedures of Cedar, organized according to a class hierarchy of the primitive types.

This document describes Release 3.2 of Cedar, July 1982. It is probably out of date if it is in hardcopy form.
