

The screenshot displays a graphical user interface with several windows and a toolbar:

- File subwindow:** A terminal window titled "Executive 11.0 of 31-Aug-84 18:47:53" showing the execution of a compile command and the output of the Mesa Compiler.
- Message subwindow:** A smaller terminal window titled "File Tool 11.0 of 31-Aug-84 18:47:53" displaying file management details.
- Form subwindow:** A window titled "Form subwindow" containing a form with fields for "Host", "Source", "Dest'n", "Directory", and "LocalDir", along with a menu of actions like "Retrieval", "Store", "Copy", etc.
- iconic tools:** A vertical toolbar on the right side of the screen containing icons for a calendar, a telephone, a document, and a musical note.

**Terminal Output (Executive 11.0):**

```

>compile CastRep.mesa CastOps.mesa CastFormat.mesa/p CastDis
Loading Compiler.archivebcd.3754265B. Starting
Mesa Compiler 11.0 of 25-Apr-84 14:25:24
CastRep...lines: 175, time: 7
  
```

**Form Subwindow Content:**

```

Host: Igor
Source: Doodle.*
Dest'n:
Directory: Hacks>11.0>Tools
LocalDir: < = >
Retrieval: Local-List! Copy! Local-Delete! List-Option
Store: Remote-List! Close! Remote-Delete!
  
```

**Terminal Output (File Tool 11.0):**

```

Opening (Pup) connection to Igor ... Done.
Igor SDD North File Server 1.38.1L, File server of February 14,
  
```
