

Field names are in **Bold**. Field types, categories are in Normal. Comments are in [brackets]. My remarks are in <<<brackets >>>.

Number:	Numeric	[AR number, supplied by Adobe]
Date:	Date&Time	[date submitted]
Submitter:	ShortString[20 chrs]	[Who entered AR?]
Source:	String	[Name & (Electronic) address of customer or internal Xerox user reporting problem; <<<I took out name, Company, ARPA address, etc >>>]
Subject:	ShortString[80 chrs]	[terse summary of problem]
Lisp Version:	ShortString[20 chrs]	[Interlisp version name/number, e.g. Fugue.1]
Description:	String	[description of problem in more detail]
Workaround:	String	[known procedure to work around problem until fixed]
Test Case:	String	[pointer to file needed to recreate prblem]
Edit-By:	ShortString[20 chrs]	[person who edit this AR last]
Edit-Date:	Date&Time	[date when this AR was last edited]
Assigned To:	ShortString[20 chrs]	[person assigned to handle the AR]
Attn:	ShortString[20 chrs]	[person who should look at this AR]
In/By:	ShortString[20 chrs]	[What version of Interlisp-D has this problem fixed?]
Disposition:	String	[Text elaboration to Status]
Source Files:	ShortString[40 chrs]	[relevant files]

System: {} **Subsystem:** {}

Communications <vanMelle.pa >

NS Protocols (SPP, COURIER, LLNS, NSFILING) <*Cooper.pa>

PUP Protocols (PUP, BSP, LLEATHER, ETHERRECORDS, CHAT, LEAF

DPUPFTP, FTPSERVER, GRAPEVINE, MTP, MAILCLIENT, RPC, LUPINE)

Server Software Version: ShortString[20 chrs]

Difficulty: {}

[difficulty of fixing problem]

Easy

[< 1 week to fix]

Moderate

[< 1 month to fix]

Hard

[< 6 months to fix]

Very Hard

[> 6 months to fix]

Impossible

[can't be fixed]

Nil

Frequency: {}

[how often does the problem occur]

Everytime

[reproducible every time]

Intermittent

[doesn't always happen]

Once

[saw it happen once]

Nil

Impact: {}

Fatal

[causes system crash, loss of work, etc.]

Serious

[can be worked around but seriously interferes with work]

Moderate

[tolerable but clearly wrong]

Annoying

[annoying as seen by some person]

Minor

[may not need to be fixed]

Nil

Priority: {}

Absolutely

[Must be fixed by next release]

Hopefully

[hopefully to be included in the release]

Perhaps

[perhaps will be included in the release]

Unlikely

[unlikely to be included in the release]

Nil

Status: {}

New

[AR just submitted]

Open

[All fields are filled in & has been assigned]

Fixed

[problem fixed]

Closed

[System with fix in it has been tested & released]

Declined	<i>[AR declined by responsible person]</i>
Superseded	<i>[later AR includes problem in this one]</i>
Obsolete	<i>[e.g., module in which problem reported is no longer supported]</i>
Incomplete	<i>[information submitted are incomplete to take action]</i>
Wish	<i>[a wish item to be considered]</i>
Nil	

Problem Type: {}

Bug	<i>[System does not work as advertised]</i>
Design - Impl	<i>[A flaw in the internal esign implementation flaw]</i>
Design - UI	<i>[The design of the user interface is wrong]</i>
Documentation	<i>[Documentation error]</i>
Performance	<i>[System performs too slowly doing some operation]</i>
